Dear Mr. Kawecki,

I have worked for the Bushelman Construction Company since 1960. I cannot remember everything that we did during that time, but I can assure you we did very little business with the Skinner Company.

If we dumped at the landfill in 1984, my guess, it was stumps and brush. I really cannot remember. All records have been destroyed. When did Skinner have a disposal plant? That's a new one on me.

I do remember renting trucks from them at some point. That could have been in 1977. Again, our records have been destroyed.

I can assure you, that we have never hauled contaminants, pollutants or hazardous material onto this site.

Very truly yours,

JOHN F. BUSHELMAN CONST., INC.

Thos. G. Folzenlogen
